## **SIJ-320UV Print Guide**

Mimaki

Thank you for purchasing our inkjet printer SIJ-320UV.

This "Print Guide" explains the printing method using SIJ-320UV and the attached software RIP [RasterLink] and items to be checked/set before printing.

## First, confirm the following items:

Before printing, the preparation for SIJ-320UV and the software RIP [RasterLink] is required. First, prepare the followings:

## About system configuration (Refer to P. 2)

The explanation of the system configuration to print is described.

## Prepare SIJ-320UV (Refer to P. 3)

To use SIJ-320UV, the items below are explained:

- Connect the PC in which the software RIP [RasterLink] has been installed with SIJ-320UV.
- Turn on the power supply.
- Depending on the media to be set, adjust the print head height etc.
- Set the media.
- Perform test printing to check whether there is no nozzle clogging etc.
- Correct the feeding rate of media.
- Correct the ink drop position.

## Prepare the RasterLink (Refer to P. 4)

The preparation of the software RIP [RasterLink] is explained. For the installation method, refer to the manual of the RasterLink.

# The printing method using a sample is explained.

Here, the printing method using a sample image included in the attached CD.

### Perform printing (Refer to P. 5)

Download the profile suitable for the using condition. (Refer to P. 7)

## Some typical questions are described.

Typical questions (Refer to P. 9)

## First, confirm the following items:

### About system configuration

Instruct to print the printing data created with the application such as Illustrator or Photoshop etc. from the PC in which the attached RasterLink has been installed.

Following the procedures below, prepare SIJ-320UV.

### Connect a PC in which the attached RasterLink is installed with SIJ-320UV.

 For details, refer to Chapter 1 "Connecting Cables" of SIJ-320UV Operation Manual. USB cable

## Turn on the power supply of SIJ-320UV.

 For details, refer to Chapter 2 "Turning the Power ON" of SIJ-320UV Operation Manual.

### Before setting a media, check the height of print head.

- For details, refer to Chapter 2 "Adjusting the Head Height" of SIJ-320UV Operation Manual.
- Adjust the Height-adjusting lever depending on the media to be used.

## **A** Set the media.

- When setting the roll media
   Chapter 2 "Setting a roll media" of SIJ-320UV Operation
  Manual
- When setting the twin roll media : Chapter 2 "Setting two narrow roll media (twin rolls)" of SIJ-320UV Operation Manual
- When setting the leaf media
   Chapter 2 "Setting leaf media" of SIJ-320UV Operation
  Manual

## Perform a test printing.

- Check if discharging defect such as nozzle clogging exists or not.
- For details, refer to Chapter 2 "Test Printing" of SIJ-320UV Operation Manual.

## **6**. Perform a media correction.

- Correct the feeding rate of media.
- For details, refer to Chapter 2 "Setting of Media Correction" of SIJ-320UV Operation Manual.

#### Perform a dot position correction.

- Correct the ink drop position.
- For details, refer to Chapter 2 "If the Positions of Dots Shift..." of SIJ-320UV Operation Manual.

Check if the attached Mimaki Driver is installed.

· For the installation, refer to Installation Guide of the attached Mimaki Driver.

### Prepare the RasterLink

Check that the attached software RIP [RasterLink] is prepared.

#### Check if the attached RasterLink is installed.

- If it is installed, the icon on the right is displayed on the PC desktop.
- For the installation, refer to Installation Guide of the attached RasterLink.

## **2** Check the connection with SIJ-320UV.

- (1) Is the power supply of SIJ-320UV turned ON?
- (2) Is the PC in which the attached RasterLink is installed connected with SIJ-320UV?

#### RasterLink.

• "Printer Management..." is displayed

## **A** Register the printer.

- For print in SIJ-320UV, the registration of the printer into the attached RasterLink is required.
- If the printer has already been registered, this operation can be skipped.
  - (1) Click [Add] in the "Printer Management..." window.
  - (2) Set the printer information.
     (The setup procedure described below assumes that SIJ-320UV is connected. Set the printer information in the following order:)
    - Model
       SIJ-320UV
    - Color
       Select depending on the device.
    - Output Port : USB2.0
    - Available Printers : Select SIJ0000000
    - Printer Name : Enter the SIJ-320UV

- The Hot folder of the name entered here is automatically created.
  - For an ink set, the information
  - retrieved from the printer is displayed.
- (3) Click [OK].
  - The confirmation screen is displayed. Clicking [OK] starts the registration of the printer.
