How to Migrate to New Version of ArtiosCAD Designer Solution

This section describes the procedure for migrating from a previous version of ArtiosCAD DS to a new version of ArtiosCAD DS.

If you already have installed ArtiosCAD DS on the PC, you can take over the configuration of an existing version to the new version at the time of the new version installation.

1. Install the new version of ArtiosCAD DS.

- (1) Perform steps 1 through 5 in "Installation procedure" page 1 in Installation Guide.
- (2) Select "Please copy the configuration from this version", and select the version of ArtiosCAD DS which you want to take over the setting from the list.
 - If there is no need to take over the setting, and install in the default configuration (the initial state), please select the "Please use the default configuration".
- (3) ON or OFF the check box of "Change the previous installation settings", and then click the [Next].
 - ON: You can select the installation location of ArtiosCAD DS.
 - OFF: Install the ArtiosCAD DS in the same folder as the old version.
- (4) Perform steps 6 to 8 of "installation instructions" in Installation Guide.
 - If the check box of "Change the previous installation settings" is OFF, then skip the step 6.

2. Clear the activation of the old version of ArtiosCAD DS.

For the deactivation method, please refer to the "Activation release procedure" page 11 and "Deactivation (proxy authentication) procedure" page 13 in Installation Guide.

3. Uninstall the old version of ArtiosCAD DS.

- (1) Open the [Control Panel] - [Uninstall a program].
- (2) Right-click the ArtiosCAD DS version that you want to uninstall, and select [Uninstall].

Important! • You will not be able to restore the settings of ArtiosCAD DS you've uninstalled. Please make sure the version.

4. Activation of the new version of ArtiosCAD DS.

For the activation method, please refer to the "Activation procedure" page 4 and "Activation (proxy authentication) procedure" page 6 in Installation Guide. Transition to the new version of ArtiosCAD is completed.
